SUBJECT INDEX TO VOLUME 44

PAGE

Animals, Effects of low fluctuating temperatures on farm. V. ... 114
Anti-estrogenic activity of certain legumes and grasses, The ... 297

Birth and weaning weights of Highland and Hereford cattle and their reciprocal crosses, The ... 174
Birth weight, subsequent weights, body weight gain, and feed consumption of Holstein–Friesian steers, The relation between ... 187
Bloat investigations. I ... 96
Bloat investigations. The foam stabilizing protein of alfalfa ... 200
Bloat investigations. Relationship between daily bloat incidence and grass minimum temperatures, dry matter, and certain plant nutrient contents of forage ... 309
Blood, Volatile fatty acid and lactic acid content of pig ... 303
Breed and certain environmental factors on birth and weaning traits of range sheep, The effects of ... 215

Carcasses, Prediction of fat-to-protein ratio in lamb ... 102
Carcasses, Prediction of yield and value of hog ... 334
Calves, Pasture rearing and milk-replacer feeding of dairy ... 235
Calves, The influence of stage of maturity of an ensiled legume–grass mixture on growth and performance of wintered Hereford steer ... 257
Cattle and lambs, The feeding value of dried potato pulp for fattening ... 39
Cattle, Pelleted and unpelleted all-concentrate rations for fattening beef ... 132
Cattle and their reciprocal crosses, The birth and weaning weights of Highland and Hereford ... 174
Cattle on dry range in relation to chemical treatments for fly control, Weight changes in ... 272
Cattle, Effect of selection for milk and total milk solids on butterfat, solids-not-fat, and protein in milk from dairy ... 290
Chemical treatments for fly control, Weight changes in cattle on dry range in relation to ... 272
Chick, Evaluation of meat meal as a protein supplement for the ... 228
Cows, The effect of moisture content of forage stored in polyvinyl silos on intake and performance of dairy ... 125

Determining approximate fracture propagation rates of egg shells, A technique for ... 347
Dicoumarol studies. III ... 76
Dietary value of soybean oil, sunflower oil, rapeseed oil, and animal tallow for turkey poults, Comparative ... 34
Diethylstilbestrol implantation on growth rate, feed utilization, and carcass traits of Yorkshire pigs on restricted feeding, Effects of ... 320
Digestion by rumen microorganisms, The effects of water extracts of forages on *in vitro* cellulose ... 16
Digestion by rumen microorganisms supported by nutritionally inadequate media, The effects of variations in volume of inocula on the *in vitro* cellulose ... 24
Diurnal excretion of Cr_2O_3 by ruminants when administered in sustained-release pellets ... 207
Dried potato pulp for fattening cattle and lambs, The feeding value of ... 39

Egg production of two breeds of laying hens in a heated and an unheated house under rigorous winter conditions ... 163
Eggs, The effects of plastic packaging and other treatments on hatching ... 87
Eggs stored in plastic bags, The effect of nitrogen and other gases on the hatchability of ... 120
Energy and protein level in rations for finishing market pigs on performance and carcass characteristics, Influence of ... 168
Environmental temperature on feed digestion, water metabolism, body temperature, and certain blood characteristics of sheep, Effect of ... 68
Ewes, Hormonal control of estrus and its effect on fertility in cycling ... 195

PAGE

Fat-to-protein ratio in lamb carcasses, Prediction of 102
Fertility of walnut-combed domestic fowl 184
Flow of digesta into the duodenum of sheep, The 220
Fowl, Fertility of walnut-combed domestic 184

Growth and performance of wintered Hereford steer calves, The influence of stage of maturity of an ensiled legume–grass mixture on 257
Growth and carcass characteristics of purebred Shorthorn and crossbred beef steers, A comparison of 249

Hair coat characteristics of bison, domestic ⅜ bison hybrids, cattalo, and certain domestic breeds of beef cattle 48
Hatchability of eggs stored in plastic bags, The effect of nitrogen and other gases on the 120
Hens in a heated and an unheated house under rigorous winter conditions, Egg production of two breeds of laying 163
Hogs and the total number of hogs marketed, The relationship between the number of Grade A 45
Hormonal control of estrus and its effect on fertility in cycling ewes 195
Hormones, buffer salts, and protein quality on the feeding of spring lambs, The effect of 179

Lambs, The feeding value of dried potato pulp for fattening cattle and 39
Lambs, The effect of hormones, buffer salts, and protein quality on the feeding of spring 179
Low fluctuating temperatures on farm animals, Effects of. V 114

MCPA, The metabolism of carotene and vitamin A following ingestion of the herbicide 29
Meat meal as a protein supplement for the chick, Evaluation of 228
Metabolism of carotene and vitamin A following ingestion of the herbicide MCPA, The 29
Milk-replacer feeding of dairy calves, Pasture rearing and 235
Moisture content of forage stored in polyvinyl silos on intake and performance of dairy cows, The effect of 125
Milk from dairy cattle, Effect of selection for milk and total milk solids on butterfat, solids-not-fat, and protein in 290

Nitrogen and other gases on the hatchability of eggs stored in plastic bags, The effect of 120
Nutrient requirements for Canadian Yorkshire swine. IV 106

Organic acid salts on growth and rumen volatile fatty acids of sheep fed pelleted or chopped high-roughage rations, The effect of 58

Pasture for young dairy stock. III 8
Pasture rearing and milk-replacer feeding of dairy calves 235
Pelleted and unpelleted all-concentrate rations for fattening beef cattle 132
Pigs reared in a non-isolated environment, Further studies of survival and serum protein composition in colostrum-deprived 1
Pigs on performance and carcass characteristics, Influence of energy and protein level in rations for finishing market 168
Pigs to ration dilution during the finishing period, The influence of sex on the response of self-fed 281
Pigs on restricted feeding, Effects of diethylstilbestrol implantation on growth rate, feed utilization, and carcass traits of Yorkshire 320
Plastic packaging and other treatments on hatching eggs, The effects of 87
Poults, Comparative dietary value of soybean oil, sunflower oil, rapeseed oil, and animal tallow for turkey 34

Rates of growth of Yorkshire, Lacombe, Landrace, and crossbred pigs from birth to 200 lb 315
Relationship between the number of Grade A hogs and the total number of hogs marketed, The 45
Response of self-fed pigs to ration dilution during the finishing period, The influence of sex on the 281

PAGE

Selection for milk and total milk solids on butterfat, solids-not-fat, and protein in milk from dairy cattle, Effect of ... 290
Sheep fed pelleted or chopped high-roughage rations, The effect of organic acid salts on growth and rumen volatile fatty acids of ... 58
Sheep, Effect of environmental temperature on feed digestion, water metabolism, body temperature, and certain blood characteristics of ... 68
Sheep, The effects of breed and certain environmental factors on birth and weaning traits of range ... 215
Sheep, The flow of digesta into the duodenum of ... 220
Sheep on pasture and rate of consumption with other feeds, Water restriction for ... 266
Shells, A technique for determining approximate fracture propagation rates of egg ... 347
Source and level of energy and level of protein intake on sow performance during growth, gestation, and lactation, Influence of.
I ... 142
II ... 154
Sow performance during growth, gestation, and lactation, Influence of source and level of energy and level of protein intake on.
I ... 142
II ... 154
Steers, The relation between birth weight, subsequent weights, body weight gain, and feed consumption of Holstein–Friesian ... 187
Steers, A comparison of growth and carcass characteristics of purebred Shorthorn and crossbred beef ... 249
Stock, Pasture for young dairy. III ... 8
Survival and serum protein composition in colostrum-deprived pigs reared in a non-isolated environment, Further studies of ... 1
Swine, Nutrient requirements for Canadian Yorkshire ... 106

Utilization of wheat straw and poplar wood by rumen microorganisms, Effect of a sodium hydroxide treatment on the ... 122

Variations in volume of inocula on the *in vitro* cellulose digestion by rumen micro-organisms supported by nutritionally inadequate media, The effects of ... 24
Volatile fatty acid and lactic acid content of pig blood ... 303

Water extracts of forages on *in vitro* cellulose digestion by rumen microorganisms, The effects of ... 16
Water restriction for sheep on pasture and rate of consumption with other feeds ... 266
Weight changes in cattle on dry range in relation to chemical treatments for fly control ... 272
Weaning dairy calves by body weight versus age from whole milk or milk-replacer, A comparison of ... 327
